| 10s |  |  |  |  |  |  |  |  |  |  |  |  |

Start here. These three are the easiest patterns, and every answer you know is one less to memorize.

# Fill in the times table

Work across one row at a time. Each row is just skip counting, so use the pattern.

| 8  |   |   |   |   |   |   |   |   |   |    |    |    |
| 9  |   |   |   |   |   |   |   |   |   |    |    |    |
| 10 |   |   |   |   |   |   |   |   |   |    |    |    |
| 11 |   |   |   |   |   |   |   |   |   |    |    |    |
| 12 |   |   |   |   |   |   |   |   |   |    |    |    |

Stuck on a square? Count up from the one before it. Every row adds the same number each time.
